TECHNOLOGIES

Making Data Work: Silverstream Journey

Data	Limited data	●
Capabilities	Manual processing and learning	●
Expertise	Developing best practices	●

Key Considerations To Maximise EET Benefits

- Early involvement during design cycle
- Clear agreement on testing methodologies & procedures
- Continued monitoring of fleet performance & System Optimisation
- Calibration tailored for ship's operating profile
- Crew training and education on performance and maintenance

Proven Tech + Quality Data + Lifecycle Support ➡ Long-term Benefits For Owners And Charterers

Thank you for listening
